

Abstract

A shaving blade unit including a housing, at least one elongated blade having a cutting edge on the housing, an elongated guard on the housing in front of the blade, and an elongated cap on the housing behind the blade. The guard includes an elongated guard strip for delivering a shaving aid and elastomeric guard fins extending laterally beyond the ends of the guard strip. The guard can also include elastomeric material including a series of depressions. The cap can also include elastomeric cap fins on both sides of the cap strip extending laterally beyond the ends of the cap strip.
